Mia, Bryn, and Celia:

Once I see what the workload from PFOA ends up being like this week, I will have a better idea of what solid waste tasks/duties I might still be able to manage. I'll let you know some details by the end of the week.

Bryn—are you down for being the Facebook queen for a month or two?!

Thanks for understanding,
Danika

Subject: Temp. change in duties

Hi all,

FYI—I am experiencing a temporary change in job duties until the end of May. I will be working primarily on coordinating public information/communications for the PFOA response effort (which is about to see an expansion as of tomorrow to other locations, mainly in Chittenden County). When the Legislature is out of session, I am expecting to return 100% to solid waste work.

I'll keep you all in the loop as things move forward—I'm hoping that the amount of time I am "in PFOA land" is shorter than expected (we can hope!). Buzz, I can still make your No Trespassing sign :-)

Let me know if you have any questions or concerns on this. Here we go….
