

DEC Stormwater Infrastructure Mapping Project

This map shows the connectedness of the stormwater infrastructure and was compiled from various sources including Town plans, WWMD plans, Stormwater permit plans, municipal member knowledge, field data, and a mapping grade GPS.

This map is for illustrative purposes only. The accuracy of the data layers shown on this map are limited by the accuracy of the source materials and field data collection. No warranty as to the accuracy or the usefulness of the data is expressed or implied. It is meant to be used as a planning level tool only.

Legend

Storm line

—— Tunnel (storm)

►►►► Combined sewer

Sanitary line

Stormwater Line

- – Roof drain
- Storm line (old Sanitary line) ------ Infiltration pipe
 - French drain
 - ----- Trench drain
 - See Emergency spillway
 - ----- Stream Overland flow
- Footing drain ----- Under drain

→→ Swale

Stormwater Points

- Catchbasin
- Dry Well
- Drop Inlet
- Grate/Curb Inlet
- Yard drain
- CB tied to sanitary sewer 8
- Junction Box
- Stormwater Manhole
- Outfall
- Pipe Cross (not connected)

- Culvert inlet
- Culvert outlet
- Pond outlet structure
- Treatment feature
- Retrofit
- Unknown Point
- Information Point

Stormwater Areas

Existing Area Proposed Area

Proposed Storm Point and Line Features

- Proposed Catchbasin
- Proposed Dry well

- Proposed Outfall
- Proposed Culvert inlet
- Proposed Culvert outlet
- →→ Proposed Swale ----- Proposed Footing drain ---- Proposed Roof drain ----- Proposed Under drain Infiltration pipe ----- Proposed French drain States Proposed Emergency spillway Town Boundary

→→ Proposed Storm line
