

DEC Stormwater Infrastructure Mapping Project

This map shows the connectedness of the stormwater infrastructure and was compiled from various sources including Town plans, WWMD plans, Stormwater permit plans, municipal member knowledge, field data, and a mapping grade GPS.

This map is for illustrative purposes only. The accuracy of the data layers shown on this map are limited by the accuracy of the source materials and field data collection. No warranty as to the accuracy or the usefulness of the data is expressed or implied. It is meant to be used as a planning level tool only.

- Storm line Roof drain ─ Storm line (old Sanitary line) ■ Infiltration pipe Tunnel (storm) French drain ► Combined sewer Trench drain Sanitary line Emergency spillway → Swale Stream Footing drain → Overland flow ----- Under drain
 - Junction Box
 - Outfall 0.12 Miles

Dry Well

- **Drop Inlet**
- Grate/Curb Inlet
- Yard drain CB tied to sanitary sewer
- Stormwater Manhole
- Pipe Cross (not connected)

Sanitary Manhole

Combined sewer MH

- Culvert inlet
- Culvert outlet
- **Control Structure**
- Treatment feature
- Retrofit
- **Unknown Point**
- **Information Point**
- Known CSO outfalls

Existing Area

Proposed Area

Stormwater Areas

- Proposed Dry well
- Proposed Drop inlet
- Proposed Yard drain
- ---- Proposed Roof drain Proposed Under drain Proposed Stormwater manhole
- Proposed Control Structure Proposed Outfall
- Proposed Culvert inlet

VERMONT

Proposed Culvert outlet

- Proposed Emergency spillway Tunnel (storm)
