

NOTICE OF DETERMINATION OF ELIGIBILITY FOR CATEGORICAL EXCLUSION

Town of Shelburne, Vermont

I/I Mitigation and Structural Repairs in Selected Portions of the Town of Shelburne's Wastewater Collection System
AR1-062

In accordance with Section VII of the Department's Environmental Review Procedures for Projects Funded Through the Vermont/EPA Revolving Loan Program, the Town of Shelburne, Vermont, has requested that its proposed wastewater collection system slip lining point repair project be evaluated for eligibility for a Categorical Exclusion from the detailed environmental review that is described in the Procedures and required for projects with significant environmental impact. The proposed project includes the structural repair/liner of approximately 4,000 linear feet of 8-inch gravity sewer and approximately 12,000 linear feet of test/seal repair along Juniper Ridge and Hulcrest area.

Our consideration of the Town's request for Categorical Exclusion included a detailed review of the following documents:

Environmental Information Document titled "*I/I Mitigation and Structural Repairs in Selected Portions of the Town of Shelburne's Wastewater Collection System*" and dated June 4, 2009, by Town of Shelburne, Vermont.

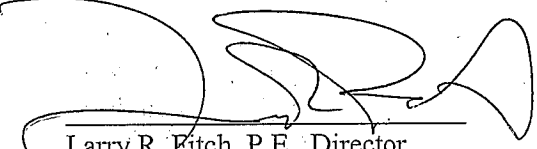

Upon completion of its independent evaluation, the Department has determined that the project meets the criteria for receiving a Categorical Exclusion. Specifically, the project involves minor rehabilitation of existing facilities and functional replacement of the existing pumping facility, and therefore does not affect the degree of treatment or capacity of the existing wastewater treatment facility.

Further information on the project and this Determination is available for inspection at the following locations:
