Notice of Determination of Eligibility for Categorical Exclusion

Alburgh Village Water System, WSID #5136
Alburgh, VT
Water System Improvements
DWSRF Loan RF3-322

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Village of Alburgh Water System, located in Alburgh, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The project consists of the installation of 200 lf of waterline, new electrical conduit, and refurbishment (i.e., recoating) of the interior and painting of the exterior of the 200,000-gallon elevated steel storage tank

Our consideration of the Village of Alburgh's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Phelps Engineering, Inc. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4905. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Drinking Water and Groundwater Protection Division's [Environmental Review Determination Notice](#) page.
