Notice of Determination of Eligibility for Categorical Exclusion

Northfield Water Department, WSID #5275  
Northfield, VT  
Water System Improvements  
DWSRF Loan RF3-319

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Northfield Water Department, located in the Town of Northfield, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The project consists of 2800 lf of waterline replacement on King St., East St., and Turkey Hill Rd.

Our consideration of the Town of Northfield's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Phelps Engineering, Inc. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4905. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Drinking Water and Groundwater Protection Division's [Environmental Review Determination Notice](#) page.
