**Municipal Pollution Control Projects
Priority List for State FY 2011
Amendment**

Municipalities and Interested Parties:

On June 1, 2010, pursuant to the authority provided in the State of Vermont Municipal Pollution Control Priority System, the Department of Environmental Conservation adopted The FY 2011 Pollution Control Projects Priority List. In accord with Sections 410 and 420 of the Municipal Pollution Control Priority System the Department has reviewed the status of projects on that List and the requests of municipalities for funding of projects not included on the Construction Projects portion of the List. On December 7, 2010 the Department proposed to amend the List as specified below and requested that all comments be submitted by December 23. No comments were received.

The Department of Environmental Conservation amends the FY 2011 Pollution Control Construction Projects Priority List as attached.

The amended FY 2011 Pollution Control Construction Projects Priority List is available at the Facilities' Engineering Division Web Site, www.anr.state.vt.us/dec/fed/FMS.htm. If you do not have access to the internet you may contact Winslow Ladue to receive any documents by e-mail or United States Post.

Any questions on this amendment, or the Priority List in general should be sent to Winslow Ladue at 802-241-3404 or Winslow.Ladue@state.vt.us.

Sincerely,

A large, stylized handwritten signature in black ink, appearing to read "DK Mears".

David K. Mears, Commissioner
Department of Environmental Conservation
