Determination of Eligibility for Categorical Exclusion

Drumleys Condominiums Association-Drumleys Condominiums Water System,
WSID #5282
Water System Improvements
DWSRF Project RF3-246

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Vermont/EPA Revolving Loan Fund Program, Drumleys Condominiums Association, WSID #5282, has requested its proposed water improvement project be evaluated for eligibility for a Categorical Exclusion exempting the project from detailed environmental procedure required for projects having a significant environmental impact.

The project includes: a new pump house, two new precast concrete storage tanks, raw water flow meters, and disinfection improvements.

Our consideration of Drumleys Condominiums Association's request included reviewing environmental information and documentation completed and submitted by Trudell Consulting Engineers. Upon completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an exclusion.

Further information on the project and this determination are available for inspection at the Department of Environmental Conservation, Water Supply Division, Old Pantry Building, at 103 South Main Street, Waterbury, Vermont.
