Determination of Eligibility for Categorical Exclusion

Tara Townhomes Condominium Owners' Association-Tara Townhouses Water System,
WSID #5545
Water System Improvements
DWSRF Project RF3-213

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Vermont/EPA Revolving Loan Fund Program, Tara Townhomes Condominium Association, WSID #5545, has requested its proposed water improvement project be evaluated for eligibility for a Categorical Exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The project includes: water storage tank replacement in order to reduce Trichloroethylene (TCE) levels.

Our consideration of the Tara Townhomes Condominium Owners' Association request included reviewing environmental information and documentation completed and submitted by the Vermont Rural Water Association. Upon completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an exclusion.

Further information on the project and this determination are available for inspection at the Department of Environmental Conservation, Water Supply Division, Old Pantry Building, at 103 South Main Street, Waterbury, Vermont.
