Notice of Determination of Eligibility for Categorical Exclusion

Mountain View MHP, WSID #5155
Johnson, VT
Water System Improvements
DWSRF Loan RF3-343

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Mountain View MHP Water System, located in the Town of Johnson, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The project involves planning, design and construction of 1) construction of two 4,000-gallon precast concrete storage tanks to replace failing unsanitary existing 8,000 tank, 2) new chlorine injection system to obtain necessary contact time prior to distribution, and 3) installation of flushing valves.

Our consideration of the Mountain View MHP Water System's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Green Mountain Engineering. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Facility Engineering Division's [Environmental Review Determination Notice](#) page within five business days of notice.
