Notice of Determination of Eligibility for Categorical Exclusion

Bellows Falls Water Department, WSID #5298
Bellows Falls, VT
Water System Improvements
DWSRF Loan RF3-308

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Village of Bellows Falls System, located in the Town of Rockingham, VT, has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The project consists of replacement of waterlines and associated appurtenances on Blake Street, Playground Road and Park Street.

Our consideration of the Village of Bellows Falls Water System's request included reviewing environmental information and documentation completed and submitted by their engineering consultant Dufresne Group. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Facility Engineering Division's [Environmental Review Determination Notice](#) page within five business days of notice.
