Notice of Determination of Eligibility for Categorical Exclusion

Cabot Town Water System, WSID #5261
Cabot, VT
Water System Improvements
DWSRF Loan WPL-279

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Cabot Town Water System, located in the Town of Cabot, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The project consists of the replacement and upgrade to a new 8" ductile iron waterline beginning at the intersection of Route 215 running along the Danville Hill Rd for approximately 3,500 linear feet. The new waterline will include two hydrants.

Our consideration of the Town of Cabot's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Aldrich + Elliott. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
