Notice of Determination of Eligibility for Categorical Exclusion

City of Rutland Water System, WSID #5229
Rutland City, VT
Water System Improvements
DWSRF Loan RF3-341

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the City of Rutland Water System, located in the Rutland City, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The project consists of the replacement of approximately 300 linear feet of 8-inch watermain on Avenue C.

Our consideration of Rutland City's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Otter Creek Engineering. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
