Re: Categorical Exclusion without submittal of Environmental Report- Rutland Town FD#6

---

Rutland Town FD#6's Pumphouse Improvement project (RF3-364) is eligible for a categorical exclusion per 40 CFR Part 6.204, Procedures for Implementing the National Environmental Policy Act (NEPA) and Assessing the Environmental Effects Abroad of EPA Actions, and the Vermont State Environmental Review Process (SERP). This finding is based on my review of the project which confirms it will be confined to the existing building with no environmental or archaeological impacts outside the building's interior footprint. Please see attached project description and pictures prepared by the FD's consulting engineer, Otter Creek Engineering.
