Notice of Determination of Eligibility for Categorical Exclusion

Mobile Acres MHP Water System, WSID #5171
Braintree, VT
Water System Improvements
DWSRF Loan WPL-291

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Mobile Acres MHP Water System, located in the Town of Braintree, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The project consists of the replacement of two existing dead-end waterlines along Fogey St with a looped service for the existing mobile homes. The existing 2" galvanized pipes will be replaced by a looped 2" AWWA C901 DR 9 polyethylene tubing main with a flushing hydrant. Service lines for the existing mobile homes will be 1" AWWA C901 DR 9 tubing. Each unit will be provided with a new curb stop outside of the home footprint. The proposed project will connect to the piping in the existing pump house.

Our consideration of the Mobile Acres MHP's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, DeWolfe Engineering Associates. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
