Notice of Determination of Eligibility for Categorical Exclusion

Ascutney FD#2 Water System, WSID #5339
Weathersfield, VT
Water System Improvements
DWSRF Loan RF3-370

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Ascutney FD#2 Water System, located in the Town of Weathersfield, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The project consists the replacement and/or addition of main line valves and curb stops at critical locations in the distribution system. All commercial water meters will also be replaced.

Our consideration of the Ascutney FD#2's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Aldrich + Elliott, PC. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
