Notice of Determination of Eligibility for Categorical Exclusion

Proctor Water Department, WSID #5226
Proctor, VT
Water System Improvements
DWSRF Loan RF3-363

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Proctor Water Department, located in Proctor, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

Piping improvements on South Park Street and Chatterton Park for the purpose of replacing outdated and undersized water distribution piping and improving pressures in the municipal water distribution system.

Our consideration of Proctor Water Department's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Dubois & King Inc. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
