Notice of Determination of Eligibility for Categorical Exclusion

Village of Hyde Park, WSID #5154
Hyde Park, VT
Water System Improvements
DWSRF Loan WPL-280

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Village of Hyde Park, located in Hyde Park, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The proposed improvement includes the replacement of existing water mains with new mains on Fitch Hill Rd., Eden St., Church St., and West Main St. The project also includes improvements to the Fitch Hill Rd. pump station. The improvements are needed to resolve insufficient water pressures and replace ageing infrastructure.

Our consideration of the Village of Hyde Park's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Dufresne Group. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
