Notice of Determination of Eligibility for Categorical Exclusion

Timberline Condominium Homeowners Association, Inc., WSID #5442  
Warren, VT  
Water System Improvements  
DWSRF Loan RF3-392-3.0

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Timberline Condominium Homeowners Association, Inc., located in Warren, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

Drilling new well, deepening existing well, and/or hydrofracking existing well as needed to maintain system pressures and meet normal water demands.

Our consideration of Timberline Condominium Homeowners Association, Inc. request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Otter Creek Engineering. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
