Notice of Determination of Eligibility for Categorical Exclusion

Richmond Water System, WSID #5084
Richmond, VT
Water System Improvements
DWSRF Loan RF3-365-3.0

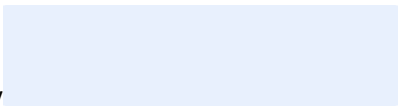

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Richmond Water System, located in Richmond, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

Replacement of approximately 1,100' of water main that is beyond its useful life on Bridge Street running from the end of Bridge Street bridge to Esplanade Street (Phase III) and from Esplanade Street to Jolina Court (Phase IV).

Our consideration of Richmond Water System's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Green Mountain Engineering. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
