Notice of Determination of Eligibility for Categorical Exclusion

Lyndonville Water System, WSID #5040
Lyndon, VT
Water System Improvements
DWSRF Loan RF3-387-3.0

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Lyndonville Water System, located in Lyndon, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

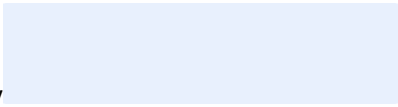

Adjustment to proposed waterline replacement for the Vail Drive project as follows:

- Abandonment of existing water main that runs under private property including under building and through apparent wetland area.
- Installation of new water main realigned to be in ROW of Speedwell Ave.
- Installation of additional approx. 400 ft. of water main in ROW of Vail Dr.

Our consideration of Lyndonville Water System's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Aldrich & Elliott. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
