Notice of Determination of Eligibility for Categorical Exclusion

Town of Williston Water Department, WSID #5098
Williston, VT
Water System Improvements
DWSRF Loan RF3-415

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Town of Williston Water Department, located in Williston, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

Construction of approximately 6,800 linear feet of new 8" waterline on Pine Lane, White Birch Lane, Aspen Lane, and Lamplight Lane. Includes gate valves and fire hydrants. New water services will be constructed to edge of right-of-way. Work will be performed in Town right-of-way.

Our consideration of the Town of Williston Water Department's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Aldrich & Elliott. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
