Notice of Determination of Eligibility for Categorical Exclusion

Hyde Park Village Water System, WSID #5154
Hyde Park, VT
Water System Improvements
DWSRF Loan RF3-386-3.0

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Hyde Park Village Water System, located in Hyde Park, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

Installation of an emergency-use only standby power generator at the water system treatment building on North Hyde Park Road. Installation of a compound meter in a concrete vault on the service line at the fire station on Centerville Road.

Our consideration of the Hyde Park Village Water System's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Dufresne Group. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
