Notice of Determination of Eligibility for Categorical Exclusion

City of Burlington, WSID #5053
Burlington, VT
Water System Improvements
DWSRF Loan RF3-426-3.0

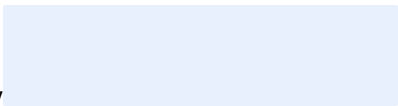

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the City of Burlington, located in Burlington, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

Rehabilitation of water mains through replacement or relining with cured-in-place-pipe. Work will take place within the road right-of-way of the following streets: part of Flynn Avenue by Oakledge Park, part of Ledge Road, part of Prospect Street, part of Deforest Road, part of Overlake Park.

Our consideration of the City of Burlington's request included reviewing environmental information and documentation completed and submitted by city engineering staff. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
