Notice of Determination of Eligibility for Categorical Exclusion

Starlake Village Leaseholders Association, WSID #20308  
Norwich, VT  
Water System Improvements  
DWSRF Loan RF3-429-3.0

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Twin Pines Housing Trust on behalf of the Starlake Village Leaseholders Association, which operates on property and equipment owned by the Trust, located in Norwich, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

Installation of standby generator at water pump house. Generator and propane tank will be above ground on concrete pad.

Our consideration of Starlake Village Leaseholders Association's request included reviewing environmental information and documentation completed and submitted in coordination with DeWolfe Engineering, as well as review of the project site in the ANR Atlas. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
