Notice of Determination of Eligibility for Categorical Exclusion

Irasburg Fire District #1, WSID #5200
Irasburg, VT
Water System Improvements
DWSRF Loan RF3-391-3.0

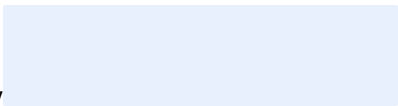

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Irasburg FD#1, located in Irasburg, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

Replace existing waterline on VT Routes 14 and 58 with 4" PVC water main. Install 2" HDPE water main under the Black River in an HDPE sleeve. Interconnect new to existing mains and services in existing highway Right Of Way and easements.

Our consideration of Irasburg FD#1's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Otter Creek Engineering. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
