Notice of Determination of Eligibility for Categorical Exclusion

Town of Barre, Wilson Industrial Park, Water Main Extension, WSID #5566
Barre, VT
Water System Improvements
DWSRF Loan RF3-445-3.0

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Wilson Industrial Park, Water Main Extension, located in Town of Barre, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The Town of Barre is planning to extend the existing 8-inch water main along Parker Road and connect with the existing water main on Bolster Road. This loop is called "Area #1" and has been a targeted goal of the Town's for several years, as completing the loop will improve hydraulics, increase fire flows, provide redundancy and reduce overall water age.

The project will include approximately 2,500 feet of water main to connect Parker Road with Bolster road in the Wilson Industrial Park.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
