Notice of Determination of Eligibility for Categorical Exclusion

Mountain Park, WSID #20731
West Dover, VT
Water Treatment Improvements
DWSRF Loan RF3-468-3.0

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, Mountain Park, located in West Dover, VT has requested its proposed water improvement project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The Mountain Park Water Treatment Improvement project will install a new standby chlorination system, anion exchange system and pH adjustment in an existing building, with no ground disturbance.

Our consideration of Mountain Park's request included reviewing environmental information and documentation completed and submitted by their engineering consultant, Dufresne Group, Consulting Engineers. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion.

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
