Notice of Determination of Eligibility for Categorical Exclusion

Burlington Department of Public Works Water Division, WSID #5053
Burlington, VT
Pine St., Summit St., and Bennington Ct. Waterline Replacement Project
DWSRF Loan RF3-602

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Drinking Water State Revolving Fund (DWSRF) Program, the Burlington Department of Public Works Water Division, located in Burlington, VT has requested its proposed Pine St., Summit St., and Bennington Ct. Waterline Replacement Project be evaluated for eligibility for a categorical exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

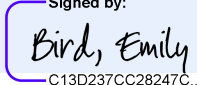

This project involves the replacement of approximately 2500 linear feet of water main on Pine Street, Summit Street, and Bennington Court in Burlington, VT. The replacement of the water main and appurtenances will reduce water main break events.

The project involves mitigation measures, detailed in the [Environmental Information Document](#) (EID), which the owner has agreed to implement as part of their federal funding.

Our consideration of Burlington Department of Public Works Water Division's request included reviewing the EID completed and submitted by the City of Burlington. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an Exclusion. Should the proposed work be altered to expand beyond the current scope of work and/or Area of Potential Effect, further review will be required due to potential cultural sensitivity of undisturbed areas. The Burlington Department of Public Works Water Division Water System and all contractors on their behalf are [directed](#) to follow the Stockbridge-Munsee Community Band of Mohican Indians Policy for [Treatment and Disposition of Human Remains and Cultural Items That May be Discovered Inadvertently During Planned Activities](#).

Further information on the project and this determination are available for inspection by contacting the DWSRF Program at (802) 585-4904. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Infrastructure Financing Program's [Environmental Review Determination Notice](#) page.
