\*Authorized Signature

\_\_\_\_\_  
Date

\_\_\_\_\_  
Print Name

\_\_\_\_\_  
Title

\*This certification must be signed by a representative of the company who is authorized to certify on behalf of the company that all provisions of the Certified Labeling Plan will be met in accordance with the requirements of the Vermont Labeling Law.

\*\*An "initial plan" submission of a Certified Labeling Plan was required for specific mercury-added products manufactured after March 1, 2000 and mercury-added lamps (bulbs) manufactured after November 30, 2003 in the 1998 law. If you are submitting a labeling plan as an initial submission, you must indicate the planned implementation date in the certification statement above. Please provide a letter indicating the reason(s) for not meeting the established deadline and a process for and expedient implementation of the labeling plan once approved by the Department.

\*\* A new plan to comply with the 2005 labeling law must be submitted by October, 2006 for products that may have been added in the 2005 law or for products previously covered in the form of an updated plan. Labeling must be effective prior to July 1, 2007 and therefore must be implemented by that date for all new products not previously covered under Vermont's 1998 law.

\*\*If you are submitting an "update" to a Certified Labeling Plan that is currently on file with Vermont to report on labeling for additional products, please indicate when the labeling will be implemented based on when the products will go into production.
