**EXPLANATION**

This plate shows water well depth in feet. Depths are indicated by the labels, as well as the size of the green symbols. The mean well depth is 285 feet and the median value is 265 feet. Statewide, the mean depth of bedrock wells is 290 feet. Thus, the wells in the quadrangle are being completed at depths that are similar to the statewide average.

Base map from U.S. Geological Survey.  
Coordinate System: Vermont State Plane, meters, NAD 83.  
Geographic coordinates shown at topo corners are in NAD 83.

Digital cartography by George Springston, December 31, 2018.
