### **Acceptance of VIMS CAP Completion Report for Energizer Degreasing Facility**

**Energizer Degreasing Facility  
401 Gage Street, Bennington, Vermont  
SMS Site #2006-3509**

Dear Steve Buss:

The Sites Management Section (SMS) reviewed the Corrective Action Construction Completion Report for the Vapor Intrusion Mitigation System (VIMS), dated November 21, 2025. The CAP Completion Report was prepared by ERM Consulting and Engineering, Inc. for Energizer Degreasing Facility, which is located at 401 Gage Street, Bennington, Vermont. The VIMS CAP was prepared for the owner, Energizer Holdings, Inc. The CAP Completion Report meets all the requirements of § 35-608 of the IRULE.

The SMS has determined that the Corrective Action Plan Completion Report for the Vapor Intrusion Mitigation System for Energizer Degreasing Facility, SMS Site #2006-3509 is **complete** for the current use of the property. The Long Term Monitoring Work Plan (ERM, 2025) is in effect.

Should site or property use change in the future to include residential, a Major CAP Amendment will be required to modify the VIMS to be protective of residential users.

If I can be of assistance, please contact me at (802) 461-6918 or [kristi.herzer@vermont.gov](mailto:kristi.herzer@vermont.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Kristi Herzer", written over a horizontal line.
