Re: Site # 89-291

Dear Mr. Schwer,

The contaminated soil of approximately 1½ cubic yards found on our property was dug up and stored in plastic for approximately 1½ - 2 years. At that time we were told we could "land farm" it, spread it out over the property, which we did. I believe this was done 2 years ago, but don't abosolutely trust my memory as to the time.

I hope this information is helpful to you. If you have any further questions, please let me know.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Jim Durham', written over a horizontal line.

Jim Durham
