RE: Stockpiled soils from Purcell Fuel in Chelsea
(Site #89-0350)

August 21,1996

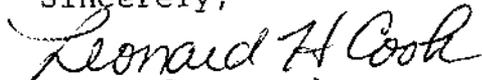

Dear Chuck,

The soil that was brought back from Chelsea was put with the Dan & Whits soil. These soils were spread out on our site after oral permission from your office. This site has been monitored by Dufresne-Henry, Inc since it was spread out with no problems found.

Please send a letter to this office when this site has been closed for our files.

Thank you for your help.

Sincerely,

Leonard H. Cook
President
