SMS Site #1992-1294

Dear Mr. and Mrs. Caulfield:

As you have requested, the Sites Management Section (SMS) is supplying this letter as clarification. The SMS sent you a Site Management Activity Complete (SMAC) letter dated October 16, 2006. That letter apparently had the wrong mailing address. Looking through the file, it appears that the SMS obtained that misinformation from the reports and letters your consultant, Daly Environmental Contracting, LLC, had on their correspondence. We apologize for any confusion.

Please be aware that the SMS Site #1992-1294 is associated with 11 The Green in Woodstock Vermont and the actual mailing address is for deliverable purposes only.

If you have any questions or concerns, please feel free to contact me at the information listed above.

Best regards,
