RE: Approval of Corrective Plan-Corrective Action Area 1-Operable Unit B-May 2018
North Bennington and Bennington, Vermont (SMS Site #20164630)

Dear Mr. Canning:

Prior to the 30-day public comment period, the Vermont Department of Environmental Conservation, Sites Management Section (SMS) determined that the proposed Corrective Action Plan (CAP) for Corrective Action Area 1-Operable Unit B (CAA 1-OUB) by Barr Engineering was complete per Subsection 35-506(a) of the Vermont Investigation and Remediation of Contaminated Properties Rule, adopted July 27, 2017. The 30-day public comment period ended June 11, 2018. No written comments from the public were received on the CAP. Therefore, the SMS approves the CAP, which includes the following for CAA1-OUB:

- Well Replacement Plan
- New Well Testing Plan
- Bottled Water Plan
- POET Operation, Monitoring and Maintenance (OM&M) Manual
- Long-Term Monitoring Plan
- Long Term Monitored Natural Attenuation Plan
- Institutional Plan

Over

This approval requires Saint-Gobain to implement the CAP per the schedules and scope specified in the CAP and the respective plans in the appendices. Any deviation in the CAP, including schedule of ongoing tasks and reports, requires prior approval from the SMS. If you have any questions, please do not hesitate to contact Richard Spiese or me.

Sincerely,

John Schmelzter, Co-Project Manager
Sites Management Section
