Hey good morning Chuck,

I happened to turn on the TV Saturday morning and there was Chuck Schwer in North Bennington on the Albany news!!! That's great that you guys are on this PFOA so fast. I've been doing work on this next door with the Village of Hoosick Falls...of course it's a bit of a panicked scene as a combination of NYS DEC, EPA, and DOH are all running around along with law firms, Erin Brockovich, TV cameras, university groups, and companies putting in water filters and taking blood tests. I don't watch TV much but have started checking local news as they seem to have information quicker than I can get. I know you probably have things well in hand, but just wanted to let you know I'm here if there's anything I can help with down on this end of the state.

Good luck with this Chuck and I hope you can get other work done,

Paul
