**Re: National Pollutant Discharge Elimination System (NPDES) General Permit 3-9030  
for Designated Discharges to the Bartlett, Centennial, Englesby, Morehouse and Potash  
Brook Watersheds**

**Authorization of Notice of Intent # 6323-9030**

Dear Ms. O'Connell,

The Department of Environmental Conservation has received the Notice of Intent (NOI) to seek coverage under General Permit 3-9030. A ten-day comment period was provided after the NOI submittal. No public comments were received.

Enclosed is your copy of an Authorization to Discharge pursuant to General Permit 3-9030, which has been signed by the Stormwater Program Manager on behalf of the Commissioner of the Department of Environmental Conservation.

This authorizes the discharge of stormwater from The Windjammer located on 1076 Williston Road in South Burlington, Vermont to Centennial Brook. To maintain coverage under General Permit 3-9030, the permittee shall maximize infiltration of stormwater runoff, prevent and eliminate soil erosion, and prevent and eliminate delivery of pollutants to stormwater conveyances by **October 15, 2010**. The Small Sites Guide for Stormwater Management has been developed to assist permittees in meeting these requirements and can be found at [http://www.vtwaterquality.org/stormwater/htm/sw\\_RDA.htm](http://www.vtwaterquality.org/stormwater/htm/sw_RDA.htm). Additionally, permittees shall submit a Site Assessment conducted in accordance with Appendix B of this general permit by **December 30, 2010**.

Please read this Authorization to Discharge carefully and note the terms, conditions and eligibility provisions of General Permit 3-9030. If you have any questions, please call the Stormwater Section at (802) 241-3770.

Sincerely,

A handwritten signature in cursive script that reads "Jennifer Callahan".
