Project Description:

Magnitude (length, volume, etc.) Installation of a 10-ft wide by 7-ft high by 36-ft long precast concrete box culvert.
Purpose Replacement of an undersized 48-inch CMP culvert with a 10-ft wide by 7-ft high (inside opening) four sided precast concrete box culvert.

Construction Procedure Excavate for proposed box culvert, remove existing 48-inch CMP culvert, place proposed culvert via crane, backfill, grade sideslopes, install rip-rap, place seed and mulch.

Erosion/Sediment/Water Control Procedure Install silt fence, bypass water via pump or reroute via temporary stormwater piping.

ATTACH 2 COPIES : layout plan, typical or surveyed cross sections, stream profile and pertinent hydraulic or hydrologic information.

Excavating Contractor TBD Phone _____
