**AUTHORIZATION TO CONDUCT STREAM ALTERATION ACTIVITIES**

Pursuant to Section C.2.2 of the VT Stream Alteration General Permit

Project Number: **SA-04-003-2016**

Applicant Name: R.R. Charlebois, Inc. c/o Ron Charlebois

Mailing Address: 950 Rout 7 South, Milton 05468

Phone: 802-655-5040

Project Location: Same as mailing address (44/35/44, 73/09/36)

Email: [ron@rrcharleboisinc.com](mailto:ron@rrcharleboisinc.com)

The Secretary of the Vermont Agency of Natural Resources (VT ANR) has determined that:

1. This is an after the fact authorization for an approximately 60' clear span bridge installed over an unnamed tributary. The bridge exceeds the minimum standards of the general permit for span and height.
2. The proposed activity was eligible for coverage under the VT ANR Stream Alteration General Permit.
3. All disturbed areas should be stabilized with stone or vegetation when site conditions allow.
4. The steel placed in the unnamed tributary to ford the stream should be removed from the stream when site conditions allow.

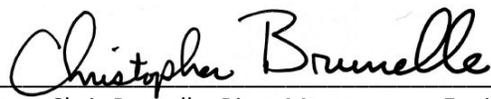

Contact the River Management Engineer for any proposed work in perennial streams.

If the project was constructed as you have described, and the above conditions are followed, there is no reason to expect that there was or will be any violation of Vermont Water Quality Standards.

Signed this 6<sup>th</sup> day of April, 2016

Alyssa B. Schuren, Commissioner

Department of Environmental Conservation

by:   
Chris Brunelle, River Management Engineer
