

The Vermont Agency of Natural Resources, Department of Environmental Conservation (DEC) issued a draft stormwater discharge permit (6216-INDS.A) for the Kingdom Community Wind project in Lowell, Vermont on March 16, 2021. Green Mountain Power (applicant) and co-applicants seek to renew and amend the previously issued stormwater discharge permit for the constructed project. The draft permit would reauthorize the discharge of stormwater runoff from constructed impervious surfaces. The Agency has extended the public notice period through June 23, 2021. Public comments may be submitted through the Agency's Environmental Notice Bulletin (enb.vermont.gov). Application materials are available on the Environmental Notice Bulletin website or otherwise by request to kevin.burke@vermont.gov or by calling Kevin Burke at 802-490-6168.

The Agency will be holding a Public Meeting to allow for public comment on the draft permit decision, Wednesday, June 16, 2021, 6:30 PM until 9:00 PM, which will be held virtually online through Microsoft Teams, with a call-in option. The purpose of the public meeting is to allow for interested persons to provide public comment on the draft permit decision verbally. Upon close of the public notice period, the Agency will review public comments for consideration in the Agency's final decision.

To participate in the public meeting on June 16, 2021 see the following information and links:
